

# Flicker

## Steeped in Sable

Nothing is new here underneath the sun  
All of the big new charlatans will sneer at us  
Barely a flicker of the light to come  
Only the people who always think they know best

Nothing is new here underneath the sun  
All of the big new charlatans will sneer at us  
Barely a flicker of the light to come  
Only the people who always think they know best
