Fire Meet Gasoline

Sia

It's dangerous to fall in love
But I want to burn with you tonight
Hurt me
There's two of us
We're bristling with desire
The pleasure's pain and fire
Burn me
So come on
I'll take you on, take you on
I ache for love, ache for us
Why don't you come
Don't you come a little closer
So come on now
Strike the match, strike the match now
We're a perfect match, perfect somehow
We were meant for one another
Come a little closer[Chorus]
Flame you came from me
Fire meet gasoline
Fire meet gasoline
I'm burning alive
I can barely breathe
When you're here loving me
Fire meet gasoline
Fire meet gasoline
I got all I need
When you came after me
Fire meet gasoline
I'm burning alive
And I can barely breathe,
When you're here loving me
Fire meet gasoline
Burn with me tonightAnd we will fly
Like smoke darknin' the sky
I'm Eve, I wanna try
Take a biteSo come on now
Strike the match, strike the match now
We're a perfect match, perfect somehow
We were meant for one another

Come a little closer[Chorus]
Flame you came from me
Fire meet gasoline
Fire meet gasoline
I'm burning alive
I can barely breathe
When you're here loving me
Fire meet gasoline
Fire meet gasoline
I got all I need
When you came after me
Fire meet gasoline
I'm burning alive
And I can barely breathe,
When you're here loving me
Fire meet gasoline
Burn with me tonight[Bridge]
But it's a bad debt
Certain death
But I want what I want
And I gotta get it
When the fire dies
Darkened skies
Hot ash, dead match
Only smoke is left
But it's a bad debt
Certain death
But I want what I want
And I got to get it
When the fire dies
Dark in the skies
Hot as a match
Only smoke is left[Chorus]
Flame you came from me
Fire meet gasoline
Fire meet gasoline
I'm burning alive
I can barely breathe
When you're here loving me
Fire meet gasoline
Fire meet gasoline
I got all I need
When you came after me
Fire meet gasoline
I'm burning alive

And I can barely breathe,
When you're here loving me
Fire meet gasoline
Burn with me tonight
