It's Me Again

Jill King

When you're lyin' by her side
And your conscience just can't hide
A bitter taste flows from her skin
It's me againRestless nights you toss and turn
Are you ever gonna learn
Each time old regrets rush in
It's me againCHORUS:
When memories out of nowhere make you wonder if you still care
All you can think about is how you left me here
When you walk out of my life into her arms
Now every time the guilt starts
The ghost of yesterday reminds you of the love we made back then
It's me again[Instrument Break Guitar-Fiddle]When second thoughts cross your mind
And you can't leave the past behind
You wonder just what might have been
It's me againWhen the touch you left me for
Don't satisfy you anymore
You'll close your eyes and you'll pretend
It's me againWhen memories out of nowhere make you wonder if you still care
All you can think about is how you left me here
When you walk out of my life into her arms
Now every time the guilt starts
The ghost of yesterday reminds you of the love we made back then
It's me again
