Need It

Half Moon Run

In a dream
I was untrue
Shouted in sweats
And I knew it was you
All the while as I traced your spine
Tore out my hair as my peace of mindWell if you breathe in
I'll breathe in
Slowly let go
If you need it
Then I need it
Only we'll knowCan't be the same
As we lie in a lie
Knowing full well
Your virtue's my vice
In the night we are one
'Till the moment is gone
'Till my race has been runAnd if you breathe in
I'll breathe in
And slowly let go
And if you need it
Then I need it
Only we'll knowAnd those sorry words
Make me not know my mind
And they're so afraid for useAnd if you breathe in
Then I'll breathe in
And only we'll know
