

# Ready Fuels (Demo)

## Anberlin

This car turned over without a key or gasoline tonight  
Fill everything on fire and just to killed to the fall to dress tonight Help me to wait on you, hesitate on through,  
cause I'm alone  
Feel so jaded, contemplative, waiting for you We're running, we're running hot tonight and it feels so good  
Your arm in mine, here, near midnight and it feels so right  
Girls and the boys chase down running hard tonight Running down the ready fuels it's finally over, just get over  
Time will tell if all turns out OK  
Help me to realize my dream is dying, redefine just where I turned away  
So look the other way tonight We're running, we're running hot tonight and it feels so good  
Your arm in mine, here, near midnight and it feels so right  
Girls and the boys chase down running hot tonight Can you wait for me a little, little longer?  
Can you wait for me a little longer? We're running, we're running hot tonight and it feels so good  
Your arm in mine here near midnight and it feels so right  
Girls and the boys chase down running hot tonight Can you wait for me a little, little longer?  
Can you wait for me a little longer? We're running, we're running hot tonight and it feels so good  
Your arm in mine here near midnight and it feels so right  
Girls and the boys chase down running hot tonight
