I Love You

Said the Whale

When I learned that I had a brother
I made up a dance for you
We'd be crime fighters together
And do things that brothers do

When you told me about his mother
And all that she'd been through
What could I do

You got it wrong but I love you
You're kinda rough but I love you
We get along and I love you
You know you know you know I love you

When I learned I had a sister
I pretended to hate her
I'd seen it on TV
I knew exactly what to do

When I found it out
That she had her very own daughter
What could I do

You're kinda sad but I love you
You're kinda rough but I love you
We get along and I love you
You know you know you know I love you

We've got a bloodline passing through our sight lines
We've got a bloodline man I gotta find mine

I love you, I love you, I tell you that I love you
I need you, I love you, I really really love you

I love you, I love you, I tell you that I love you
I need you, I love you, I really really love you

I love you, I love you, I tell you that I love you
I need you, I love you, I really really love you

I love you, I love you, I tell you that I love you
I need you, I love you, I really really love you

You're kinda sad but I love you
You're kinda rough but I love you
Maybe you're broke but I love you
I know it's stupid but I love you

You got a bad sense of humour.
A little rough around the edges
You're kinda soft in the middle
You love those boring instrumentals

I never see you but I love you
We get along and I love you
You are my blood so I love you
You know you know you know I love you

You know you know you know I love you
You know you know you know I love you
You know you know you know I love you
You know you know you know I love you
