War

Eva Under Fire

It came to you it came without warning
Like fire across the sky
Scorched away the night
It's a bitter world we live in
A cold hearted love we're given
Is it all for not just a waste of time

Chorus
One word
Are you ready for war
Fight for
Fight fight for what you stand for
Bleeding pieces
Bleeding meaning
This is my heart on the floor
One word one word
Yeah this is war

Vs2
There's change today and there's change tomorrow
Black fire in your eyes
Swaying your resolve
This is all just a game they're playing
Giving only to take away
I would blame the world but it's all my fault
But I see the sun that's rising

Chorus
One word
Are you ready for war
Fight for
Fight fight for what you stand for
Bleeding pieces
Bleeding meaning
This is my heart on the floor
One word one word
Yeah this is

Bridge
War, this is war

I don't want your war I don't want your
I don't want you war I don't want your
War
