

# Missing You

**Kina Grannis**

Love, it's a special day.  
we should celebrate  
and appreciate  
that you and me found something pretty neat  
and i know some say this day is arbitrarybut it's a good excuse to put our love to use  
baby i know what to do, baby i will love you  
i'll love you, i'll love you.love, i don't need those things  
i don't need no ring  
i don't need anything  
but you with me, cause in your company  
i feel happy oh so happy and completeand it's a good excuse to put our love to use  
baby i know what to do, baby i will love you  
i'll love you, i'll love you.so wont you be my honey bee  
giving me kisses all the time  
be mine, be my valentineso wont you be my honey bee  
giving sweet kisses all the time  
be mine, be my valentine
