

# **Lovely and Wild**

## **Young Liars**

fading skylines  
lunar glows in the night  
search the space for your hand  
looking through other eyes  
we warm our hearts  
through kind love  
lovely and wild  
high and nears  
I find i was only on my own  
then I would never never know  
what you would do, what you would do  
I find if i was only on my own  
then I would never never know  
what you would do, what you would do  
morning light, shone on time  
let's come by  
flash the smooth skin  
we are looking through other eyes  
and our future bound  
by our line  
lovely and wild  
high and nears  
I find if I was only on my own  
then i would never never know  
what you would do, what you would do  
I find if i was only on my own  
then i would never never know  
what you would do, what you would do  
the morning noise will wake us  
and bring a spark from our dreaming  
longing from the evening  
the feeling of intervening  
I was lost for this  
I was lost for this  
I was lost for this  
for  
if I was only on my own  
then I would never never know  
what you could do, what you could do

if I was only on my own  
then I would never never know  
what you could do, what you could do  
if I was only on my own  
then I would never never know  
what you could do, what you could do  
if I was only on my own  
then I would never never know  
what you would do, what you would do  
what you could do, what you could do  
what you would do, what you would do
