

Voila

Death Grips

My proper veil shadow gander
My shadow stigmata often
Left, right, up, step right up
Get your crisis rock-bottom
Crack light priest wind fire dog
Melon impetered cellophane
Arms long as their legs
Even the greys can't
Oh Veil Maybe I belong to you
I'm sure you want me to
My shadow's onto you
veil , veil
I can't make you like veil
I'll make you love veil
Make you make love to veil
Hole
Make you place your faith with veil
Hotel
Enough with what your temple knew
Help I don't talk to the help
Help
Whose veil suits you too well?
Don't talk to the help
Help
Oh My proper veil shadow gander
My shadow stigmata often
Left, right, up, step right up
Get your crisis rock bottom
Crack light priest wind fire dog
Melon impetered cellophane
Arms long as their legs
Even the greys can't veil
Oh Veil It's your lucky day, my shadow br«l©es, veil
Aren't you lucky fuck my shadow gush, veil
You're a lucky spin my shadow spam veil
My shadow slither my shadow whisper veil
Live in my shadow while you wait to gasp in space
Gasp in my shadow like everything that lives
My shadow incubate everything that is

My shadow casts veil through every one of its kids
I don't talk to the help

Help

Whose veil suits you too well?

Don't talk to the help

Help

Oh My proper veil shadow gander

My shadow stigmata often

Left, right, up, step right up

Get your crisis rock bottom

Crack light priest wind fire daughter

Melon impetered cellophane

Arms long as their legs

Even the greys can't

Oh Veil
