

# Interlude

## Lil' Wayne

[Tech N9ne]Hot's what it is, watch what the kid drops  
I'ma get the prop if you're not with the biz  
Not only other regions, I really popped at the crib  
So hatin' motherfuckers, you better stop with the jibs  
Off of the thizz, but I'm boss  
It don't matter what the cost when I live right across from the Wiz  
Killa City will have a nigga lost in the Mid  
Doing nothing but mothers stacking pussy coffin again  
What is happening is a merger  
Different levels of murder  
Lil Weezy cook it and I'mma serve her  
Further when I'mma get doing this - remember when eating Gerber  
Mama said to kill 'em all, and I heard her  
Thank you, Baby, for what became Lil Wayne  
It's gettin' all the people knowin' that Strange in the game  
I been really able to hang in the fame  
But when he shouted my name it's been a change in my lane  
I'm a KLUSTERFUCK and lovin' nothin' but to get your brain  
And I be stuck in lust and quick to a bust a nut and take a nigga's dame with no shame  
When they be bussing 'nough  
They thinkin' they thuggin' tough  
But never do knuckle up  
You in the gang, you bang  
You drunk and touching every thang, you lame  
Sucka, you cannot sustain the reign  
Tech N9ne is such a cuckoo in this

Baller nigga, Strange Music, crew threw swishes  
I know a lot of you prolly never knew who this is  
Well, you listenin' to Tecca Nina, Soo Woo business  
[Andre 3000]Today, I feel electric gray, I hope tomorrow neon black  
I tell a nigga all those flows are borrowed  
It's the phar-oh, Three Stacks  
I woke up in Cai-ro  
Lookin' at stars so bright in the sky I thought they were marbles  
No car doors, what ya call those?  
A whole carload of raw hoes  
In a Jeep Defender  
Please remember, don't feed the Simba

Three's assembled like nobody  
He's a symbol of what's safari  
Pulled her ponytail to my body  
She's the only girl that was smart E-  
-nough to call me 'Mr. Benjamin' in the middle of a wild party  
Skin was cinnamon; I pound it harder  
How come the only girls that are thought of  
Are the light ones?  
Well tonight then, we gon' do it, do it, do it for the dark ones  
It's important that you are more than  
Welcome to the Carter IV and  
Y'all enjoy it, I will go 'head  
And I'll kiss y'all on y'all forehead, out
