

# Got My Eyes On You

## Union Carbide Productions

Overnight sensations  
I've got my eyes on you  
Overnight sensations  
Will you put me through  
There ain't nothing that I wouldn't do  
To make you stop to distort my views  
Yeah you  
I've got my eyes on you Faraway nations  
I've got my eyes on you  
Faraway nations  
Will you put me through  
Let me push the button  
Cause I've got nothing to do  
Well you better duck and cover  
For I will be there soon World domination  
I've got my eyes on you  
World domination  
Will you put me through  
Far too many people  
That will depend on you  
I've been waiting for so long now  
To make my dreams come true The sun is going down  
And snakes begin to crawl  
Take a look around  
Can you see the berlin wall?  
Please, can you tell me  
What's behind the news  
Please can you tell me, cause  
I've got my eyes on you  
I've got my eyes on you  
I've got my eyes on you
