

# Starz

## Bananarama

I see the stars in your eyes  
Where our universe collides  
Lay beside me  
Feel my heart beat  
Take me through the night  
Standing there in front of me there's nothing I can say  
Cause boy you really take my breath away  
Ooh baby  
No denying I'm in heaven when you look my way  
And you can't hide it's written on your face  
Take me far away it's where I want to be  
Together for eternity  
Eternity(chorus)  
I see the stars in your eyes  
Where our universe collides  
Lay beside me  
Feel my heart beat  
Take me through the night  
So let our bodies move in time  
The moon and stars are all in line  
You're the one I've waited for  
Don't have to search no more  
Close your eyes  
Drift away  
Touch the stars  
Golden rays shine through the haze and touch us where we lay  
Destiny has handed me my fate  
So lay your head up on my pillow and watch the angels play  
Close your eyes and we can drift away  
Lay your hands on me  
Our bodies will entwine  
I love you till the end of time  
The end of time(chorus ad lib)
