Bullet

Chelsea Lankes

[Chelsea]
You came up to me persistent as can be
"You're done," they say a hundred times
I could never tell
Had me under your spell
I fell for all your stupid linesEveryone told me that I should know my worth
And babe when you hold me, I know I shouldn't hurt
And so I took the nights and highs and I just threw them in the trash
They didn't matter at all
And I played my favorite song
Turned up the volume and I dancedI didn't care anymore
I'm better than I've ever looked
And boy, I never felt this good
I saw you with that other girl
And I hope that was all
I dodged a bullet with you
Selfish little messYou hated all my friends
You always had to get your way
Every night a 3am, you had another reason why you couldn't stay
Everyone told me that I should know my worth
And babe when you hold me, I know I shouldn't hurtAnd so I took the nights and highs and I just threw them in the trash
They didn't matter at all
And I played my favorite song
Turned up the volume and I danced
I didn't care anymore
I'm better than I've ever looked
And boy, I never felt this good
I saw you with that other girlAnd I hope that was all
I dodged a bullet with you
I dodged a bullet with you
And so I took the nights and highs and I just threw them in the trash
They didn't matter at all
And I played my favorite song
Turned up the volume and I dancedI didn't care anymore
I'm better than I've ever looked
And boy, I never felt this good
I saw you with that other girl
And I hope that was all

I dodged a bullet with you
