

# What Went Wrong

JP Cooper

I'll tell you what went wrong,  
I spent my days planning a future when I couldn't see in front of me  
I'll tell you what went wrong,  
I had a great imagination but I couldn't grasp reality  
I'll tell you what went wrong,  
I couldn't stop myself from reaching for a better life for you and me  
I'll tell you what went wrong,  
I couldn't give myself completely  
cuz the music wouldn't let me be(Chorus)  
Darling, tell me what's the story  
Darling, tell me what went wrong  
Darling, what's upon your shoulders  
Darling, just keep holding on I'll tell you what went wrong,  
Although we complemented one another We were made so differently  
I'll tell you what went wrong,  
We were two broken pieces thrown together hoping we might be complete  
I'll tell you what went wrong,  
I didn't have the tools to fixture any more than you had them for me(Chorus)  
Darling, tell me what's the story  
Darling, tell me what went wrong  
Darling, what's upon your shoulders  
Darling, just keep holding on(Bridge)  
You didn't mean any harm and I know that  
Believe me nor did I  
We tore each other apart and I'm sorry,  
For every tear I made you cry  
And I'll never see you again on a bright day  
Can we wash away all of the pain(Chorus)  
Darling, tell me what's the story  
Darling, tell me what went wrong  
Darling, what's upon your shoulders  
Darling, just keep holding on
