

In This Love (Instrumental)

Stick Figure

I've flown too close to the sun this time,
if keep flying then I'm gonna get burned
I walk by the edge of the ocean and I
look to the sky and then I watch us return
In this love, in this love, in this love nooo
I feel the weight of this world on my shoulders
our love, it always stays the same.
I don't believe all the things that they told us
this love it makes us feel this way.
In this love, in this love,
in this love, in this love nooo
I'm not ready to go
This world is not ready for me
The clock keeps spinning so slow
I guess we'll have to wait and see
In this love, in this love, in this love nooo
Lookin up, lookin up, lookin up now
Lookin up at the sun, it goes down
lookin up, things are lookin up now
Lookin up, lookin up, lookin up now
Lookin up at the sun, it goes down
lookin up, things are lookin up now
In this love, in this love, in this love
I've flown too close to the sun this time,
if keep flying then I'm gonna get burned
I walk by the edge of the ocean and I
look to the sky and then I watch us return
In this love, in this love, in this love nooo
In this love, in this love, in this love nooo
