

Humannequin

The Color Morale

and i will)
be there when you get home
and i will be there when you become all you hate
all you hate when you become
you have to see the floor
you have to see the floor before you
you can see the angels are reaching
cross all the t's dot the i's this is your life
the contract expires when you die
you need to see the bottom of every barrel to know
maybe i was wrong to look in to all the eyes of all of my demons
i would rather stare right back into the eyes of the devil
to find my own face
being alone being alone never felt so good cause i found you
maybe time was wrong (time was wrong)
maybe time was wrong (time heals nothing)
we can all be alone, all alone, all alone
we can all be alone but we will still have you
maybe ill become all that i hate
maybe ill become maybe ill become all i hate
maybe (ill) become (you)
he will pull all of us out
