

Standin' At The Same Old Crossroads

[Sammy Hagar](#)

Yeah, oh I looked so easy, baby
Out there on your own
Sure looked so easy, baby
Out there on your own, oh It's funny how the world looks at you
When you're almost grown, almost grown, almost grown
Don't worry about nothin'
You got nothin' to lose Well things can stay that easy, baby
Dependin' on the road you choose
The road you choose, the road you choose
Standin' at the crossroads Standin' at the crossroads, baby
Same old crossroads
Same old crossroads, yeah
