

The Way You Don't Love

Strings Of Atlas

Artist: Strings of Atlas

Writer/composer: Atlas Cage

Song: The way you don't love

Album: In a better worldI saw you through the glass

I wanted you so bad

I really thought you were somethingI tried to do it right

To take your pain away

Give up my sanity to keep you happyI even fought the dark

When it came creeping in

You kept my light in your pocket babyYou were the very best

Mistake I ever made

Would not have changed a thingI guess I kind of like the way that it hurt

I guess I kind of like the taste of the dirt

I guess I kind of liked the way that you love me

I guess I kind of hate the way that you don'tYou got what's good for you

That's what your friends have said

I know what's good for me

But wanted you instead

It's not the way that love me

It's the way that you don't

That's what she used to say

And it would break my heart

Now that you did it

You ask forgiveness

But baby I'm not a priest

Said it was a mistake

You're lying to my face

Maybe we just need some timeI guess I kind of like the way that it hurt

I guess I kind of like the taste of the dirt

I guess I kind of liked the way that you love me

I guess I kind of hate the way that you don'tIt's not the way that you love me

It's the way that you don'tI guess I kind of like the way that it hurt

I guess I kind of like the taste of the dirt

I guess I kind of liked the way that you love me

I guess I kind of hate the way that you don't
