No Surprise

Ratt

Why live your life with no surprise
(Why live your life with no surprise)
(Why live your life with no surprise)
(Why live your life with no surprise)HeyLivin's easy when you think you've got control
Don't look too close, you'll find your silver isn't gold
Leave your problems behind you, take a hold
I'm gonna show you things you've never seen beforeWhy live your life with no surprise
I'll tell you something
(Tell you something)
Why waste your time, it's no surprise
You've got everythingYou spoke the oldest crossing, well over mine
You're running home 'cause I'm workin' late at night
And the way that you're move me, you make me wanna scream
One in a million, you're right out of my dreamWhy live your life with no surprise
There's only one thing
(Tell you one thing)
Why waste your time, it's no surprise
You've got everythingIf they wanted your charms, you couldn't play their games
Then they wanted your life, you couldn't push them away
After fighting for days, they couldn't beg you to stay
Now you're gonna live your own wayWhy live your life with no surprise
I'll tell you something
(Tell you something)
Why waste your time, it's no surprise
You've got everything
(Everything)Why live your life with no surprise
There's only one thing
(Tell you one thing)
Why waste your time, it's no surprise
You've got everythingWhy live your life with no surprise
There's only one thing
(Tell you one thing)
