Neon

Rollins Band

I want to touch your neon chemical
I want to make you need like an animal
The way you rip my head off, you're my main incinerator
Kick the door down when you come, tear the roof off when you leave, yeah..The scene should be flashing as you rip in
Slip into something dangerous as something I can fear
Lie and say you want me, lie and say you will
Tell me all the stories, how you love and how you kill, yeah..Love me as you kill me
I want to feel destruction
I want to see extintionWill you smile when our sheets get soaked in blood when the saints come crashing in?
Could you do some damage to the shape I'm in?
Ruin this ruin, and go to the end, yeah..Love me as you kill me
I want to see destruction
I want to feel extintion
Without you life is nothing
Without you life is mortal time
Without you I'm just standing here
Without you I'm just waiting to be alive!Please, leave your mark on me, make an impression
Don't warn me before you cut..
..the moon reflects off your tools, love me long
Don't slay me, don't spit on my blood after I'm gone, yeah..Love me as you kill me
I want to see destruction
I want to feel extintion
