I Love U

De Indispensables

Well, well, come on, everybody
Wave your hands if you feel
I know we got some lovin' up in here
Everybody, hear me sing
It's been a long time comin'
But a change is bound to come
Somehow I knew I'd lose you
'Cause of the man that I've become
Only reason for you stayin' for me
Is you remember what we had
I'd give up the brightest future
To get those old flames back
I never ever meant to waste your time
(I want you to know)
Every time I said I love u, it wasn't no lie
(I want you to know)
That I miss livin', that's a cold feelin'
Without you in my life, that's the slow killin'
But I know better, you deserve better
And do whatever, forever I
I love u, if this is the end
And we don't talk again, let me say
That I love u, somehow I went wrong
Hope you hearin' this song, let me say
That I'm sorry for not bein' the man
I promised I'd always be
But I love you and that's just the real
Hope you still feel it comin' from me
It's been a long time comin'
And now everybody knows my name
Seems I've traded in my woman
For this fortune and fame
The times she really needed me
And her faith was runnin' low
I took time to please everyone else
But not the one closest to my soul
I never ever meant to waste your time
(I want you to know)
Every time I said I love u, it wasn't no lie

(I want you to know)
That I miss livin', that's a cold feelin'
Without you in my life, that's a slow killin'
Well, I know better, you deserve better
And do whatever, forever I
I love u, if this is the end
And we don't talk again, let me say
That I love u, somehow I went wrong
Hope you hearin' this song, let me say
That I'm sorry for not bein' the man
I promised I'd always be
But I love you and that's just the real
Hope you still feel it comin' from me
(I want you to know)
I love u, if this is the end
And we don't talk again, let me say
That I love u, somehow I went wrong
Hope you hearin' this song, let me say
That I'm sorry for not bein' the man
I promised I'd always be
But I love you and that's just the real
Hope you still feel it comin' from me
I love u
(I want you to know)
I love u
(I want you to know)
That I'm sorry for not bein' the man
I promised I'd always be
(I want you to know)
I love you and that's just the real
Hope you still feel it comin' from me
