All Night Long

Aldo Nova

Feel the fire
Burning outta control
It's a flaming desire
But don't you call it loveIt's gotta hold on me
Never wanna let it go
Well, over here, little girl
There's something you ought to know
Oh yeah, babyAll right
Just wanna let you know
Tonight
I only wanna hold youTighter and tighter
Than you've ever been held before
Until you feel the fire
Of this burning love, yeahWell, over here, little girl
Come on and let it show
'Cause we got the night
Never let it go
Oh yeah, babyAll right
Just wanna let you know
Tonight
I only wanna love youAll night long
So come on, just wanna love you
All night long
Hold on, just wanna love you
Really wanna love you tonightSo hold tight
Tonight
Hold tight
My babyAll night long
So come on, just wanna love you
All night long
Hold on, just wanna love you
Really wanna love you tonightSo hold tight
Tonight
Hold tight
My babyAll night
I just wanna love you
Hold tight
'Cause I really wanna love youAll night
And, baby, if you want to

Hold tight
I'm really gonna love youAll night
Oh yeah, baby, baby
Hold tight
