## Why Don't We

You should be flyin' with me  
You could be smilin' with me  
You wouldn't be cryin' with me

We could be wildin'

We could be free

And if the sky falls I'll catch it

Just to steal you a star

I'll ride it to battle for you

Just so we could

We could be free

We could be free

We could be free

We could be free

We could be free

We could be free

We could be free

We could be free

(For you, be free)

(For you, no)

(For you, girl)

(No, for you, no)

(For you, be free)

(For you, no)

(For you, girl)

(No, for you, no)

You're so invitin' with me

Shot gun you're ridin' with me

You're lookin' lighted with me

We could be wildin'

We could be free

And if the sky falls I'll catch it

Just to steal you a star

I'll ride it to battle for you

Just so we could

We could be free

We could be free

We could be free

We could be free

We could be free

We could be free  
We could be free  
We could be free  
(For you, be free)  
(For you, no)  
(For you, girl)  
(No, for you, no)  
(For you, be free)  
(For you, no)  
(For you, girl)  
(No, for you, no)  
(And if the sky falls I'll catch it, just to  
steal you a star)  
(No, for you, no)  
(I'll ride it to battle for you, just so we  
could)  
We could be free  
We could be free  
We could be free  
We could be free  
We could be free  
We could be free  
We could be free  
We could be free
