JJ

Area 7

I don't see you everyday
I count the hours that I'm away,
I wish that you were here by me,
Coz this ain't the way that it's supposed to beAnother show, another place,
A picture of you & a smiling face,
A broken heart that you will never see
This ain't the way that it's supposed to beLies are told, angry words are said
But when I'm with you - baby I don't care
Right here for you, I will always be,
This is the way that it's supposed to beI look at you & I see me
I see you, you're all I thought you'd be
How you make me feel, I still cannot believe
But this ain't the way that it's supposed to be....& so I'll call you from the road,
another tour - I'm far away from home,
I wish that you were here by me,
Coz this ain't the way that it's supposed to be
