

# Lunch Will Keep Us Together

Neil Sedaka

Lunch, lunch will keep us together  
There's no meal that's better  
Just give me a fork and a spoon  
Its almost noon  
Make me some food cause I want to eat soon Just stop cause I'm really hungry  
Stop, I can hear my tummy  
Look in the fridge and let lunch keep us together  
Mmmm Hot dogs, mac and cheese, french fries in ketchup I'll drown  
When the others say they're stuffed, who's still chowin' it down  
I will I will I will I will Bite down and chew forever, lunch will keep us together  
Ate it before and I'll eat it again  
Alone or with friends  
Keep the food coming and I'll tell you when Just stop cause I'm really hungry  
Stop, I can hear my tummy  
Look in the fridge and let lunch keep us together  
Whatever  
I will I will I will I will Just stop cause I'm really hungry  
Stop, I can hear my tummy  
Look in the fridge and let lunch keep us together Mmmm tastes good Hot dogs mac and cheese, French fries in  
ketchup I'll Drown  
When the others say they're stuffed, who's still chowin' it down  
I will I will I will I will Bite down and chew forever, Lunch will keep us together  
Ate it before and I'll eat it again  
Alone or with friends  
Keep the food coming and I'll tell you when Just stop cause I'm really hungry  
Stop, I can hear my tummy  
Look in the fridge and let lunch keep us together  
Whatever  
I will I will I will I will
