

# Falling Anthem

## Bad Boy Bill

Been tracking in all my thoughts  
I can't find the principle  
My heart can't stop racing  
I see your face, I fall apart.

I feel everything  
This is the first time  
Everything seems fine since the start  
I've been waiting so long.

This is the falling anthem  
For the first time  
Can't stop this thing from happening.

This is our falling anthem  
And it feels right  
Can't stop our hearts from pounding.

Your kisses still stop time  
The disaster's beautiful  
Remember the phases  
those unhappy spaces  
That tore my heart.

You healed everything  
I know how I'm feeling  
I know I'm not dreaming  
I smile  
Waiting here all along.

Can't stop  
Can't stop this  
Can't stop this thing from happening...
