

# React (Instrumental)

Jaylib

Let Quas upon the set  
He came up out them dungeons to tell these suckers  
Niggas, try come react, to what we doing  
Stepping over to the lost gates  
Not knowing what they doing New breed, we keep it live like it's Memorex  
In other words, washing you out like some dinnerex  
Put a curse on your life, and the next  
You see images, at the line scrimmages  
Alien regiments, instamens  
Use for demented, cause ya'll niggas on limited inventive  
Cause you know, we on that Quasimoto mode  
But we can roll, overload, your brain, through the snow  
Vision cause ya'll be on that globe missions  
When I try to react And when one shows he pose threat to this one  
This one will make that one into none  
And when one shows he pose threat to this one  
This one will make that one into none Ripping up your face when you try to react  
You get split with my stool-back, push your dome back  
Till your cranium crack, and three more smacks for acting like that Mr. Booty gets spliff leave you waiting for,  
facelift  
Like he on some lace sniff, he talking all that end up laying stiff New breed, Quasimoto emcees  
We pushing our shit like niggas selling keys  
All you niggas just fail as emcees And when one shows he pose threat to this one  
This one will make that one into none  
And when one shows he pose threat to this one  
This one will make that one into none When we hit the spark, we up on model three  
Honey dip, chronic blunt, snapple bottle spreeds  
Back in '91, putting kiwi-strawberry weed  
Had the Mr. Buddahs freestyle tapes  
On the enders, if the tip, now we pop papes Turn the astro black when it's time for wild-cakes  
Word to armageddon, niggas don't even know where we headed  
Our new breed is spreading  
Niggas mad cuz' we setting shit off in verbal wettings  
Why ya'll try to react? And when one shows he pose threat to this one  
This one will make that one into none  
And when one shows he pose threat to this one  
This one will make that one into none
