

Hard & Fast

Slash

I don't want it
Don't need anymore
You got me lying on the killing floor tonight
I'm on eleven
Been up for days
It's gonna bring me to an early grave
This life
So I've got to go
You won't change my mind
Cause I can't survive another night in the white room
Cause a tiny bit It always turns to more
And these bloodshot eyes got to say goodbye
I had my fun but I can't deny
Living hard and fast I'll never last beside you
My skin is crawling
I'm a shell of myself
You come a roaring like a bat out of hell

That's right
(Every fucking time)
Well come on lover
Won't you give it a rest
I'm never gonna make it out of this mess alive
So I've got to go
Got to say goodbye
Cause I can't survive another night in the white room
Cause a tiny bit It always turns to more
And these bloodshot eyes got to say goodbye
I had my fun but I can't deny
Living hard and fast I'll never last beside you
Cause I can't survive another night in the white room
Cause a tiny bit It always turns to more
And these bloodshot eyes got to say goodbye
I had my fun but I can't deny
Living hard and fast I'll never last beside you
Living hard and fast I'll never last beside you
