

# Hard & Fast

## Slash

I don't want it  
Don't need anymore  
You got me lying on the killing floor tonight  
I'm on eleven  
Been up for days  
It's gonna bring me to an early grave  
This life  
So I've got to go  
You won't change my mind  
Cause I can't survive another night in the white room  
Cause a tiny bit It always turns to more  
And these bloodshot eyes got to say goodbye  
I had my fun but I can't deny  
Living hard and fast I'll never last beside you  
My skin is crawling  
I'm a shell of myself  
You come a roaring like a bat out of hell

That's right  
(Every fucking time)  
Well come on lover  
Won't you give it a rest  
I'm never gonna make it out of this mess alive  
So I've got to go  
Got to say goodbye  
Cause I can't survive another night in the white room  
Cause a tiny bit It always turns to more  
And these bloodshot eyes got to say goodbye  
I had my fun but I can't deny  
Living hard and fast I'll never last beside you  
Cause I can't survive another night in the white room  
Cause a tiny bit It always turns to more  
And these bloodshot eyes got to say goodbye  
I had my fun but I can't deny  
Living hard and fast I'll never last beside you  
Living hard and fast I'll never last beside you
