

# Coincidence

## I Am Kloot

Love may have just come to bury me  
But I'm not afraid of what I see  
I'm not afraid of the worldTime has gathered us here by coincidence  
That's why what I say doesn't make any senseLife may have just come to bury me  
But I'm not afraid of what I see  
I'm not afraid of the worldWe, we're all gathered here by coincidence  
That's why what we say doesn't make any senseYou may have just come to carry me  
Beyond the things I've ever seen  
Love may have just come to bury me  
But I'm not afraid of what I see
