

Gimme One More Shot

Dr. Feelgood

(j.b. lenoir/aley atkins) Give me one more shot bartender, just before I go
Well, give me one more shot bartender, just before I go
I have had my fun and I don't feel well no more Well, give me one more shot
I give me one more shot
I give me one more shot
I give me one more shot
Well, give me one more shot and I'll knock my own self out Well, if I'm going down let me go down playing
my part
If I'm going down let me go down playing my part
If I have me one more shot I will knock my own self out Hey bartender, where have you been?
I need a shot of whiskey and I need a shot of gin Just give me one more shot
Give me one more shot
Well, give me one more shot and I'll knock my own self out- guitar break -Hey bartender, where have you been?
I need a shot of whiskey and I need a shot of gin Give me one more shot
Give me one more shot
Give me one more shot, and I will knock my own self out Hey, give me one more shot
Give me one more shot
Give me one more shot
Give me one more shot
Give me one more shot, and I'll knock my own self out
