

# Come With Me

## Sammie

I know you think it ain't my place to say how I feel  
But I'm gonna say it anyway 'cause I gotta keep it real  
I know you're tired of trying to make it be  
Something that's truly not Girl, it kills me everyday to see you in tears  
And it amazes me the way you put up all these years  
You be tweaking, trying to make it work  
But you keep ending up hurt, oh baby, listen to me You don't have to wait, I can ease your pain  
You don't have to be left out in the rain  
Don't just say you're fed up, tired of love  
Whatever you need, I got it, come with me You don't have to stay up waiting by the phone  
You don't have to ever feel like you're alone  
Don't just say you're fed up, tired of love  
Whatever you need, I got it, come with me You're the type that always said you don't need a man  
Who's gonna make your heart stop over and again  
And now you're telling me that you're okay  
But you don't realize you're getting more pain than gain And I ain't never been the kind to steer you wrong  
If you trust me as a friend  
Then trust me with your heart, girl  
It don't take a lot to understand  
You need yourself another man You don't have to wait, I can ease your pain  
You don't have to be left out in the rain  
Don't just say you're fed up, tired of love  
Whatever you need, I got it, come with me You don't have to stay up waiting by the phone  
You don't have to ever feel like you're alone  
Don't just say you're fed up, tired of love  
Whatever you need, I got it, come with me Don't give up, girl, don't give up, girl  
Don't give up, girl, you don't have to do it, baby  
Don't give up, girl, don't give up, girl  
Don't give up, girl, you don't have to do it, baby Don't give up, girl, don't give up, girl  
Don't give up, girl, you don't have to do it, baby  
Don't give up, girl, don't give up, girl  
Don't give up, girl, you don't have to do it, baby You don't have to wait, I can ease your pain  
You don't have to be left out in the rain  
Don't just say you're fed up, tired of love  
Whatever you need, I got it, come with me You don't have to stay up waiting by the phone  
You don't have to ever feel like you're alone  
Don't just say you're fed up, tired of love  
Whatever you need, I got it, come with me, yeah Oh baby, don't give up on love, shawty  
Because I'm here, I'm here
