

Starlight (feat. Myles Kennedy) [iTunes Session]

Slash

In the distance light years from tomorrow
Far beyond yesterday
She is watching, heart aching with sorrow
She is broken as she waits
Hoping when all is said and done
We learn to love and be as one Oh Starlight, don't you cry
We gonna make it right before tomorrow
Oh Starlight, don't you cry
We're gonna find a place where we belong
Where we belong
And so you know, you'll never shine alone There are shadows sleeping on the horizon
Leave us scared and so afraid
As the fall out of a world divided
It brings her tears and so much pain
And so we take cover from the dark
Hoping to find where we can start Oh Starlight, don't you cry
We gonna make it right before tomorrow
Oh Starlight, don't you cry
We're gonna find a place where we belong
And so you know, you'll never shine alone
Starlight, we'll find a place where we belong, we belong You will see when the mountains fall and turn to dust
Yeah, there's one thing that won't change
I believe there's something within each of us that always says
That will always remain as long as love never fades Oh Starlight, don't you cry
We gonna make it right before tomorrow
Oh Starlight, don't you cry
We're gonna find a place where we belong
And so you know, you'll never shine alone
Starlight, we'll find a place where we belong, we belong She is watching, heart aching with sorrow
She is broken as she waits
