

# Need Somebody

**JD Souther**

I've been drivin this truck with a broken heart  
can't stop drivin' once I stop it  
it might never stop engine roar down from Detroit, Michigan  
engine roar and roar, won't let no silence in  
I need somebody, I need somebody, I need somebody

Coffee girl could be the one I need  
but all she can see is breakfast number one,  
two and three everybody, everybody seems like a stranger to me  
but nobody, nobody could be as strange as me  
when I need somebody, I need somebody, I need somebody

Well they don't have to be somebody new  
don't have to be a love so true  
could even be somebody just like you  
I need somebody who needs somebody too

I need somebody, I need somebody
