Life 'n Love

Lisa Lisa

It's written in the wind....
When life n' love begins
You happened like a song...
And I just listened to the story, as it played along.....(Chorus)
I'm livin' the life I always dreamed of
How could I have known....
You would come along....
And give me the life I always dreamed of
Right where I belong....
It's the way of Life n' Love..... Life n' LoveI never thought I'd find.....
Another heart like mine
And lover I believe
That we're together on this journey
For eternity.....(Chorus)
I'm livin' the life I always dreamed of
How could I have known....
You would come along....
And give me the life I always dreamed of
Right where I belong....
It's the way of Life n' Love..... Life n' LoveLooking back I never could imagine
Things would work out this way
Every day is like a new beginning
And I'm so thankful, I admit it
Thankful for it all.....
