

Blind

Daniel Norgren

Once I was the only one to you

But I was blind

Everything you've done for me

But I was blind

I never saw that all I wanted, I already had

Once I was the only one

But I was blind I never saw the blue bird in the sky above my head

I never cared too much about the little things you said

Once I was the only one

But I was blind

Once I was the only one

But I was blind

Once I was the only one

But I was blind
