Stand Up

Farewell 2 Fear

Rely on me
Or lie on me
Depending on who you facing
The one you hold,
So close so cold,
Advantage is what their taking

And now it's time
To stand up for something
Or fall for anything
You stole my trust for last time,
And now you forcing me
To stand up

And in your hands
A second chance
I try again to trust you
You seek kindness
As weakness
I may be nice but I am no fool

And for last time
Stand up for something
Or fall for anything
You stole my trust for last time,
And now you forcing me
To stand up
Stand up
You stole my trust for last time,
And now you forcing me
To stand up

Stand up [x4]
Stand up for something
Or fall for anything
You stole my trust for last time,
And now you forcing me
To stand up
Stand up
You stole my trust for last time,

And now you forcing me
Stand up
