

# Stand Up

## Farewell 2 Fear

Rely on me  
Or lie on me  
Depending on who you facing  
The one you hold,  
So close so cold,  
Advantage is what their taking

And now it's time  
To stand up for something  
Or fall for anything  
You stole my trust for last time,  
And now you forcing me  
To stand up

And in your hands  
A second chance  
I try again to trust you  
You seek kindness  
As weakness  
I may be nice but I am no fool

And for last time  
Stand up for something  
Or fall for anything  
You stole my trust for last time,  
And now you forcing me  
To stand up  
Stand up  
You stole my trust for last time,  
And now you forcing me  
To stand up

Stand up [x4]  
Stand up for something  
Or fall for anything  
You stole my trust for last time,  
And now you forcing me  
To stand up  
Stand up  
You stole my trust for last time,

And now you forcing me  
Stand up
