

Reasons

Godwolf

Can you feel my heart
Can you hear me breathin'
Can you feel my love
With an SO secret

Can your precious eyes
call to be needed
And can you treat my love
The way you want to be treated

Chorus:

If this is the way want it
If this is the way you see it going down
Then I cant change it, you'll be the only one to fix it now
But don't erase it, I wouldn't trade the past for anything
Just try to face it and hear me answering

You can break my heart
But you cant stop it healing
Can you take my word,
Against what you're feelin'
Can you stop and smile,
Fade with disaster
Cause ever since you
There's been nothin' after

Chorus x2:

If this is the way want it
If this is the way you see it going down
Then I cant change it, you'll be the only one to fix it now
But don't erase it, I wouldn't trade the past for anything
Just try to face it and hear me answering
