

The Fiction of Speed

Lulu Mae

All the things that we have seen

On the television screen

Where two people fall in love

They're not true

I mean you know you have my heart

But that's not the way it starts

All the years they are blooming around us

Please don't say you'll be afraid of time

Oh, I love that first sight

It might give you one night

Me, I'd rather be with you forever

And the fiction of speed

Is not appealing to me

All the things that come easy aren't worth it

Please don't say you'll be afraid of time

No, please don't say you'll be afraid of time

And if love is instant

Then I don't want it

Oh, if love is instant

Then I don't want it

Oh, if love is instant

Then I don't want it

And if love is instant

Then I don't want it

If love is instant

Then I don't want it
