Fighting The World

Manowar

Fight, fight, fightFighting the world every single day
Fighting the world for the right to play
Heavy metal in my brain
I'm fighting for metal 'cause it's here to stayFighting, fighting, fighting the world
I been fighting the world
Fighting, fighting, fighting the world
I been fightingFight for a living, fighting the world
Fight for a living, fighting the world
Fight for a living, fighting the world
FightNow people keep asking if we're gonna change
I look 'em in the eye tell 'em no way
Strips on a tiger don't wash away
Manowar's made of steel not clayFighting, fighting, fighting the world
I been fighting the world
Fighting, fighting, fighting the world
I been fightingFight for a living, fighting the world
Fight for a living, fighting the world
Fight for a living, fighting the world
Fight, fight yeahSee my brother standing by my side
Only got one thing on our mind
Radio playing this nation wide
Turn it up louder 'til we all get friedFighting, fighting, fighting the world
I been fighting the world
Fighting, fighting, fighting the world
I been fightingFight, fighting the world
Fight, fighting the world, yeah
Fight, fighting the world
Fight, fighting the worldFight for a living, fighting the world
Fight for a living, fighting the world
Fight for a living, fighting the world
...
