See The Light

Aldo Nova

You look to the light
And they call you a fool, yeah
You think it's alright
It's all part of the rules, yeahBut don't look away
Till you've seen the light
Or they'll get to you, yeah
If you wanna stay
Then do what you gotta do, yeahSee the light
And you will find the answer
Morning, night, anytime
If you see the lightYou wanna give up
'Cause they're getting to you, yeah
They say, "Live it up
And stop being a fool," yeahSee the light
And you will find the answer
Morning, night, anytime
See the light
And you will find the answer
Morning, night, anytime
If you see the lightSee the light
And you will find the answer
Morning, night, anytime
See the light
And you will find the answer
Morning, night, anytimeIf you see the light
And you do it right
And you shake things up
And just get it right
And don't be a fool
Play it cool
Get it right
See the light, yeah
