

# Domino

## Saint Saviour

Show, show us how words go  
You are the golden you are the youth  
Know, know this is a new low  
This is the truth don't you know

Each new glimmer of hope  
Steeper, steeper the slope  
All this time I've been treading water  
Barely staying afloat  
Lined up like a lamb to the slaughter  
Domino domino domino

Woah say you're going solo  
You are the answer you are the new  
Go swimming in the shallows  
Cos no one wants to see you go below go below  
don't you know

Seedling, weeding to grow  
Dreamer, thoughts creep and flow  
One wall down make way for another  
Stealing, stealing the show  
One by one we fall for each other  
domino domino domino

A.Dot rap (incomplete)

Bricks stones broken bones  
High tops and open toes  
Told you I'm on overload  
Slipping on this frozen slope

Kings Cross in overcoats  
Tie the noose and hold the rope  
Most of 'em will come and go  
Putting two and two together guess we'll call it dominoes.....
