

# Fly Again

Kip Moore

I think I'm gonna take me a ride  
Don't want nobody, no, not this time  
Find me a place I can park my truck  
Hop on the hood, gonna light one up I'll check the sights on my point twenty two  
Take a couple pot shots at the moon  
Now that you're gone there's nothing to lose  
I'll think it's time I forget about you I'm gonna say goodbye to you tonight  
So long old friend  
I'm gonna fly again Pour me a shot of my real good friend  
Take me a breath and I'll do it again  
Count all my smoke rings in the dark  
Ain't gonna worry about where you are Once I've finally caught me a buzz  
I won't give a damn and I'll roll one up  
Grab my guitar, pick a song or two  
One of them songs where I forget about you I'm gonna say goodbye to you tonight  
So long old friend  
I'm gonna fly again Girl, it hurts, I ain't gonna lie  
But I'll be damned if I'm gonna cry  
It's an end and long overdue  
Forget about love girl, forget about you I'm gonna say goodbye to you tonight  
So long old friend  
I'm gonna fly again I'm gonna say goodbye to you tonight  
So long old friend  
I'm gonna fly again
