

# Liberate

## Twisted Jukebox

Liberate, my madness  
(One of me, all of you)  
Liberate my madness  
I just want to  
Liberate, my madness  
(One of me, all of you)  
Liberate my madness  
Section off myself, put a wall up, what the hell have I done?  
Keep the dog at bay, survive by saving me  
Values and the game, not a fuck-up, not a part of your lie  
I am one, I am all, I'm above and beyond  
Back off of the shit  
Stand off or I'll spit  
So soft, you forget  
(Your garbage in is garbage out)  
You don't give a shit  
I won't play the fit  
Get off, get on this  
(Your garbage in is garbage out)  
Liberate my madness  
Liberate, my madness  
(One of me, all of you)  
Liberate my madness  
I just want to  
Liberate, my madness  
(One of me, all of you)  
Liberate my madness  
I am not ashamed, what is vital, isn't always humane  
  
You can break in vain but you can't break away  
Even in my face, lotta bullshit, not a lotta the truth  
I can't see from here but I can smell your fear  
Back off of the shit  
Stand off or I'll spit  
So soft, you forget  
(Your garbage in is garbage out)  
You don't give a shit  
I won't play the fit  
Get off, get on this

(Your garbage in is garbage out)  
Saved, you're such a slave, I don't expect a name  
You don't care, I wasn't witness  
I can't be a part of a system such as this  
Hard eyes, glow right, in my darkness again  
With the sickness, renegade blisters, sisters  
Salivate, litigate, liberate, madness, sadness  
Fuck this, how long have I had this?  
I don't need this outta my business  
Insert, engage, betrayed, my God  
Fraud  
Fraud  
Liberate, my madness  
Liberate my madness  
I just want to  
Liberate, my madness  
Liberate my madness
