Demonstrate

Joe Buck, Jr.

I live in this fantasy
Where everything is amplified
Senses heighten in a flash
Everything just comes alive
This pressure all inside of me
Is sexual anxiety
(Chorus)
Baby, theres a lot of freaky shit
Runnin' my mind that I cant say
But I know I can demonstrate
And I can let my body explain
I know I can demonstrate
So I'ma make it simple and plain
You just need to come over
(I can let my body explain)
I can just demonstrate
Im arrested by the night
Where only you can set me free
Guilty, but Im not ashamed
Im exactly where I wanted to be, yeah
I leave the door open wide
In hopes that you would sneak inside
(Chorus)
Baby, theres a lot of freaky shit
Runnin' my mind that I cant say
But I know I can demonstrate
And I can let my body explain
I know I can demonstrate
So I'ma make it simple and plain
You just need to come over
(I can let my body explain)
I can just demonstrate
(Bridge)
Im thinking, come over, come over
Come over, Im thinking
Come over, come over, Im thinking
(Chorus)
Baby, theres a lot of freaky shit
Runnin' my mind that I cant say

But I know I can demonstrate
And I can let my body explain
I know I can demonstrate
So I'ma make it simple and plain
You just need to come over
(I can let my body explain)
I can just demonstrate
(Demonstrate) come over
(I can let my body explain)
So I can demonstrate
Come over, eh
