Ghost Love

Fiction Factory

VERSE1
In the mist of the night
In the mist of the night
When everyone's asleep
He comes out from way height
It's a different life
Filled with hurt filled with fright
And for me and what's love
So he tries and he tries
PRE CHORUS
It feels like I'm way passed the clouds
And being pulled to the other side
The other side
Our feelings need tonight and i'm flying towards the light
But it's just not right
It's just not right
CHORUS
It's ridiculous (It's so unnatural)
I'm feeling so unnatural
I just want to give it up
I just wanna lose it
Now I live my life without your Ghost Love
(Ghost Love)
It's ridiculous (It's so unnatural)
I'm feeling so unnatural
And I just want to give it up
I just wanna lose it
Now I live my life without you being a Ghost Love
A Ghost Love Ah no no
VERSE2
I'm so moved by his touch
I'm so moved by his touch
And his arms I'm wrapped up
Feels so good but it's rough
To know he's not for real
And it ain't gonna be
Nothing but a mystery
PRE CHORUS
Feels like I'm way passed the clouds

And being pulled to the other side
The other side
Our feelings need tonight and i'm flying towards the light
But it's just not right
It's just not right
