

Poke (feat. Steve G. Lover III)

Childish Gambino

[Verse 1: Childish Gambino]

I just wanna roll with a cutie one

I ain't tryna catch no feels

We can get along sometimes

We ain't gotta be sincere

You ain't gotta laugh so small

Breathing all down my back

They ain't never had what we had

They ain't never felt like that

Cause them summer days

Never fade away

They just stay the same

In my mind, my mind

And them summer days

Never fade away

They just stay the same

In my mind, no[Hook: Childish Gambino]

It's those summer days

Never fade away

It just stays the same

In my mind, no

It's those summer days

Never fade away

Never fear the change

In my mind, no[Verse 2: Stevie G. Lover iii]

Ok, Royalty is red hot

Shots from a redbone

Talking bout her skin tone her color beats headphones

Baby I'm just living right, and you can say I'm dead wrong

But can you disagree with that, versace on me yeah

Gold on the V-neck I'm passing every G check

Didn't f**k her for a month and never had a regret

It was just nice to have you chilling up in Key West

And we was just chill, I didn't really need s**

But really is we f*****g yo

Never serious so I make everything a f*****g joke

She be pushing buttons and she push it till that button broke

Then we smoke a blunt and all the drama it go up in smoke

See she just graduated got a new job

Took that nose ring out her nose and went and bought a new Saab

Got that boyfriend that she living with and don't smoke no more

But yo it's cool I liked her when I knew her back before like[Hook: Childish Gambino]

This song subtly highlights one of Steve GÃ¶Å€Â™s mixtapes S. O. S, (Summer of Steve). Although the song title says otherwise, this makes sense considering Steve is featured on the song.
