This Way

Tompi

I need to forget it to move on but I can still remember
about you're somewhere close to me how can it be?
I need to erase she from my mind but I still feel your arms holding me
Everytime I close my eyes...

Now you have gone so far away
But your presence is still too real why you left me to feel this way
I stilll feel your warm breathe in my ear when you whisper the sweetest thing
Why you left me to feel this way? (this way...)

Don't you know baby that this feeling keeps me waiting like, like you'll comeback to me
and sometimes in my dream I see your smiling but when I wake up it just dissapear...

Now you have gone so far away
But your presence is still too real why you left me to feel this way?
I stilll feel your warm breathe in my ear when you whisper the sweetest thing
Why you left me to feel this way?
